Yes, we will include an optional Windows Media Player activity generator for those who want a more direct content within Alive sandbox. This is in the early stages of development, but the intent is that OPCOM provides significant but specialized tasks for the player who will improve overall war effort, rather than only random secondary missions. Technically we could back-port most of it for weapon 2 or, but we didn't think it supported our new start on a new glossy game platform. The modules can be configured in the editor, so you can choose sides or factions, even the customized ones. Wolffy wrote for the first time on OSQF in September 2012 on MSO Developers Blog. When you release Alive? Clearly any changes required with Alive must be presented to the development team for inclusion in the official Alive build that everyone can enjoy. Then place one for the other faction and watch them fight out. Alive Supporter Headless Client (HC)? No you can create a custom PBO that modifies the operation of alive, for example by replacing functions or functionality to work with your addons? Addon?
