Dragon Ball Legends MOD APK will help you have superpowers in this great game. Download the game and kill your enemy in a shot! Introducing Dragon Ball Legends Dragon Ball is an animated film, a comic associated with the childhood of many generations. Do you like this famous Manga? Have you ever wished to have the same power as Son Goku, Piccolo? Transfer from the film, the game was first introduced at the GDC conference. There are quite a lot of Dragon Ball games, but there are very few attractive games that appeal to many players. If you think Dragon Ball FighterZ is the best game, then maybe Dragon Ball Legends will change your mind. The plot follows the original story. Dragon Ball Legends has a plot follows the original story. The animated film tells the story of the adventures of Son Goku and his friends, who looking for Dragon Ball. Along the way, he constantly rehearsed to be stronger, at the same time punishing the bad people. In the end, he is a fighter, protecting the world from destruction. The game is similar to one game of Bandai, One Piece: Bounty Rush. In the game, you will become a character in Dragon Ball, participate in adventures and fight with other players. A lot of danger awaits you in the front. You have to destroy all the enemies to win. You have to master the skills of the character, combine well to be the strongest. Have you ever imagined you could use Kamehameha? No need imagines more. Dragon Ball Legends will help you realize your dream. If you want to play or test more, try Dragon Ball Z: Dokkan Battle MOD APK! Characters system You will be able to meet up with childhood characters like Son Goku, Frieza, Son Gohan, Vegeta, Piccolo, Krillin, Yamcha, Cell ... and much more.

Each character has a unique skill. You should pay attention to HP of the character to figure out how much you character can sustain. In the past, I really liked Piccolo. There is no confirmation from Banco about this character. Let's wait and see what role this character plays? The game's control mechanism is relatively simple, optimized for mobile devices, tablets. You can easily get used to it, but it is difficult to become a master. Dragon Ball Legends has two main modes, offline and PvP. Unlike other games, the skill of the game is unlocked by the card system, which allows you to combine many different skills. Graphics Bandai Namco's publisher has never caused the player to feel frustrated about graphics. The game has a crisp, beautiful 3D design. Bright colors. Characters are shaped like the original. You will feel like watching Dragon Ball animated movie when playing the game. The sound of Dragon Ball Legends is also meticulously cared for. The characters are voiced relatively standard, with many familiar voices in the film. For a hot game like DBL, the existence of a MOD version was beyond imagination. Moreover, this is a quality MOD version. Download Dragon Ball Legends MOD APK for Android Dragon Ball Legends is really a game that cannot be missed this year. I believe that anyone who is a fan of Dragon Ball animation loves this game. Trust me. You will like it. Become the most epic fighter in Dragon Ball. Download Dragon Ball Legends Mod APK all characters unlocked to fight against other players from all around the world in this epic fighting saga. Experience the full action of this card-based battle game, where your characters will fight out the commands on the cards that you lay down on the screen.It's both an awesome card game where you get to collect all the best power ups and special moves, as well as an enjoyable battle game where you actually get to watch your heroes fighting it out and blasting each other with summoned energy attacks.You'll start out by training in your Turtle School Gi and level up your Ki to level where you're ready to face off against powerful opponents. Once you're ready, you'll be thrown into the real action, where there are bigger things at stake than simple training exercises.How to play Dragon Ball LegendsWhen it comes to being a master at Dragon Ball Legends, you'll want to make sure that you're fully aware of these helpful tips to win more in the game. Level up your characters and collect the Dragon Balls, but make sure that you've got the basics down first.Learn the combat system: Who hasn't won a battle game simply bashing the hell out of the controls and hoping for the best? Dragon Ball Legends, being a card-based game, works a little differently and it's definitely worth spending the extra bit of time to master the combat system in the game. Learning how to attack your rivals in the most effective way will help you a lot when playing Dragon Ball Legends - make sure that you're fully aware of the basics of gameplay by utilizing the tutorial and having a few practice games before really setting out on your adventure.Send some of your team out on adventures: While talking about adventures, you can send some of your team out to collect rare loot which will help you in your quest. It's worth doing this as often as you can - although, be careful as you can't use that member of your team when they're out adventuring. It might be worth not sending members of your core team to ensure that you can still defend yourself if necessary.Collect the Dragon Balls: Some cards in combat will have a Dragon Ball on them - use them! Once you've collected all the cards with dragon balls on them, you can easily defeat your opponent by using the Rising Rush move. This move will make all your remaining team members attack at once and deal out devastating damage against your opponents. It doesn't win the game automatically, but it certainly brings you close enough to winning.Use your character's special ability: Throughout combat, you'll notice that your character's energy bar will increase gradually over time. This will finally result in your being able to summon a devastating attack that can easily turn the tide of a battle in an instant. Make sure that you don't forget to tap on the energy bar when it's full.Ditch the Hero characters early on: The Hero class is the lowest class of character, and while there are some familiar faces from the series on there, realistically, you shouldn't bother holding on to them if you want to progress. The best characters in the game are vastly superior to the old-school hero characters and can deal out vastly superior amounts of damage.Play the story: You'll have to play through the story mode to progress further in the game. The story mode isn't actually about Goku - it's about Shalot. You'll be trying to help Shalot to regain his memory and figure out who he is in the game.Dragon Ball Legends Mod APK - All characters unlockedWant to jump in on the action? Download Dragon Ball Legends Mod APK unlimited money to play the game without limitation and grow your strength in a massive way. Enjoy!
